

# Hack the Box Academy Progress

**Joseph Glynn**

**JoeWillCode**

Below are modules I have completed in Hack the Box, each has a link attached to it which leads to the certificate of completion under the same name as this GitHub. Unfortunately, due to browser limitations you might have to download this file to click the links, my apologies for the inconvenience.

**Intro to Academy**

**Web Requests**

**JavaScript Deobfuscation**

**Getting Started**

**Network Enumeration with Nmap**

**Penetration Testing Process**

**Footprinting**

**Information Gathering - Web Edition**

**Vulnerability Assessment**

**File Transfers**

**Shells & Payloads**
